The Day in Hall Case

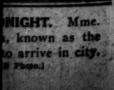

Somerville, N. J., Nov. 8.—[Special.]—The developments of this, the fifth day of the Hall-Mills trial

1. Ralph V. Gorsline, vestryman of the slain rector's church, was identified by a detective as the man who accused Henry Stevens of ordering him out of De Russey's lane on the night of the crime.

2. The story of Mrs. Jane Gil son, the pig woman and chief witness for the prosecution, was
strengthened by Robert Erling, a
millwright, who said he saw her
riding her mule in the lane on the
night of the murders. Erling,
however, said he heard no shot or

James K. Hackett was born at Wolf Island, Ontario, on Sept. 8, 1869, of American parents. His father, James H. Hackett, was famous in the early fifties of the last century for his Fal-staff and Rip Van Winkle, of which he was the original exponent. The younger Hackett made his first appear-ance on the stage at the Madison Square theater in 1892. He joined the Lyceum company under Daniel Froh-man in 1895, and was leading man here until 1899. During that period he played Romeo in a scene from "Romeo and Juliet," with Olga Nethersole and Mercutio in the same play with Maude Adams. He made his first appearance on the London stage in 1920 as Macbeth. In June, 1921, he appeared at the Odeon, Paris, in the same part, and was subsequently decorated with the Legion of Honor.

as essential.

"The advantages of an elevated street are obvious," Mr. Taylor said.
"It would eliminate stop and go signais and permit fast driving for miles. It has been proved that a nonstop drive of this kind will carry seven times the capacity of ordinary streets.

Cheaper Than Widening. "It would also be cheaper than widening, as it would not be necessary to take property from either side. It may be that the Chicago and North-western would be willing to pay part of the filling in cost in order to gain more trackage space. The new tracks and roadway could be built on the same elevation with one retaining wall."

Asked about the beauty aids she uses this lovely star says: "The delicately textured Black and White Face Powder is my favorite of all! It is so fine and smooth it is benefiting my skin wonderfully, and it fluffs on so evenly it gives a silken sheen and softness I love!"

OVER ROYAL VISIT

But the mayor's sartorial equipment for Saturday has given pause to some of the more fastidious aldermen. If the queen arrives at 5:30 p. m. and is met by a mayor in faultiess cutaway, that's fine. But by the time she has repaired to her hotel and the city's chief executive has started up to pay his return call the belis will have chimed 6 o'clock and it will be time for everyng cothes. Further Chicago plans for the queen, Princess Illeana, and Prince Nicholas were made last night at a meeting of the executive committee. Sunday night the royal party will see a performance of the Allied Arts, which includes the Adolph Boim ballet, at the Eighth Street theater.

Guess who'll lose this argument over bathroom rights!

Three in a bathroom are two too many! Dad can argue himself blue in the face but it looks as though he won't get a bath this time. For once, Bud and Junior were the early birds and got to the bathroom first!

And thus it goes, day after day. Every morning sees the bathroom a "battleground" for an otherwise peaceful family. Bathroom—bathroom—who has the bathroom! The entire family's temper is put on edge. Breakfasts are gulped-sunny dispositions are ruined—health habits are discouraged—everyone is inconvenienced. From any standpoint, does it really pay to have an inadequate number of bathrooms?

See these Model Bathrooms "More bathrooms within the reach of everyone"

The need for more bathrooms in the home is becoming universally recognized. As proof, note the large number of new homes and apartments in your neighborhood which are being equipped with two, three or more bathrooms each. These builders know that an extra bathroom means more comfort to the occupants and more value to the building.

Come, at your first opportunity, to our wholesale display rooms and see actual proof that small bathrooms can be fine bathrooms—that an extra bathroom occupies only a few square feet of space and costs but little extra.

Here you'll find bathrooms for every purse—ultra modern-fine-amply large-complete in every detail—ten years in advance of ordinary bathroom ideas. More bathrooms within the reach of everyone.

You'll find latest bathroom ideas in beauty and convenience. Modern, exquisite color effects with and without tile. Ingenious arrangements of cabinets and other built-in fixtures.

There are ideas for efficient use of limited space. New methods for giving privacy—for making the main bathroom do double duty.

Hundreds see Model Bathrooms-Everybody praises their beauty

From every visitor to our showrooms comes unreserved praise. They say, for example:

"That special father's lavatory for close-up shaving is a gem."... "The mirror and dressing tables are wonderful."... "Wall decorations and lighting are alone worth coming to see.". . "The personal apparel closets, making each bathroom a partial dressing room, are indeed clever."

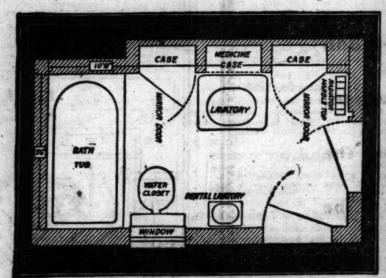

Just west of loop. Near C. & N.W. and Union Depots

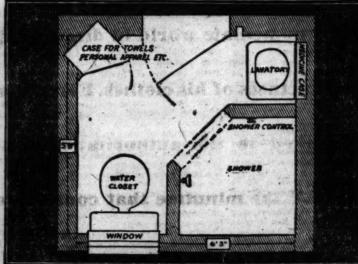

Home owners, prospective home builders, archiall will be interested—will be amazed at the modern advancements represented in this remarkable display. No obligations. This display is a contribution by Weil-McLain to the "more bathrooms" idea.

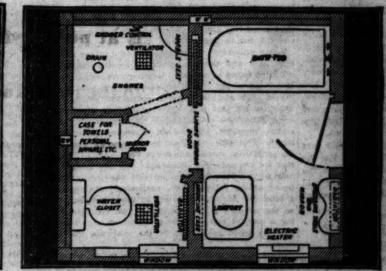

Your visit may mean to you the difference between a commonplace bathroom and one that will be the envy and admiration of your neighbors and friends. A bathroom that will make your house more convenient, comfortable and healthful to live in-more valuable when you offer it for sale.

MARSHALL FIELD & COMPANY

MANUFACTURERS · IMPORTERS · WHOLESALERS · RETAILERS

Retail Store · State, Washington, Randolph and Wabash

A SALE OF SELECTED FURNITURE, RUGS AND LAMPS This Sale is an innovation for Marshall Field &

Company: selected merchandise from three sections is grouped and offered at low prices.

FURNITURE

Hundreds of imported antiques and reproductions are included. There are pieces from France, Spain, Italy, England and Venice: benches, settees, sofas, tables, stands, mirrors, side tables, chests, bookcases, cabinets, secretaries, desks, bedroom and dining room pieces, and other articles. And virtually every period of decoration is represented. The prices have been made low enough to insure a complete clearance of the stock.

RUGS

Although the great majority of the rugs are imported, there is an attractive range of prices, and of sizes. Oriental rugs, English handtufteds, Castilian chenilles, imported loomwoven rugs, and hooked rugs are included.

THE JUAL NOVEMBER SALE
AND OF DECORATIVE LINENS

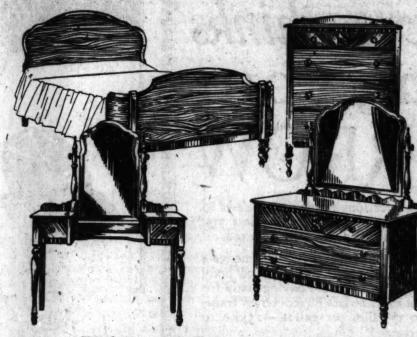

Whether you are buying for your own use or for use as a gift, it is possible for you to purchase Decorative Linens at uncommonly attractive prices throughout the month of November. This annual Sale plays a prominent part in the yearly economies of many Chicago women, who arrange to buy their year's supply of Decorative Linens during this month-long event.

A few lamps of distinctive design have been laced in the Sale. There are no duplicates. Eighth Floor, South, State

STATE AFFAIR-BLEASE

Washington, D. C., Nov. 8.—[Special.]—Indication that the solid southern delegation in the senate is not to be a unit against the admission of Senators-elect Frank L. Smith of Illinois and W. S. Vare of Pennsylvania came today when Senator Blease [Dem., S. C.] announced that he intended to vote to seat Smith and Varein spite of the primary campaign graft and corruption charged against them.

Reaffirming his adherence to the doctrine of state rights, Senator Blease contended that a state has the indisputable right to send any one it chooses to the senate and that the senate may not go beyond the authenticity of the certificate of election in testing a senator-elect's qualifications for membership.

Oh, for a return to the priceless custom of the family circle! With more such family gatherings when children are young and plastic there would be fewer harangues in later years about the "wildness of youth."
No temptations of the "teens" can entirely draw away the child who has sat at his father's knee drinking deep of the wisdom and beauty of the ages.

Perhaps one reason why the family read-ing circle is not more general today is the great difficulty of selecting suitable reading. There is a vast quantity of it; but much of it is uninteresting, much of it poorly written and much of it unsound in influence

CONTROLS LABOR

Mission Visits Factories to Study Conditions.

One of the first questions which the Lord Bishop of London asked upon his arrival in this country was how American employers manage to pay such

such profits for themselves.

A special mission of the British government arrived in Chicago yesterday to study this and other phases of the relationship between employers and employes in the United States.

The great industrial strides which this country has made since the war and the comparatively peaceful conditions in the labor field have driven British attention to this country as possessing, possibly, some secret remedy which might be adapted to soothe the peculiar industrial difficulties of the United Kingdom.

Mackenzie Heads Mission.

The mission is composed of Sir Villiam W. Mackenzie, G. B. E., K. C., chairman; Ernest Bevin, general secre-tary of the Transport and General Workers' union; J. Kaylor, J. P., memworkers union; J. Kaylor, J. P., member of the executive council of the Amalgamated Engineering union; F. W. Leggett, assistant secretary in the industrial relations department in the Ministry of Labour; I. Haig Mitchell, principal counciliation officer in the Ministry of Labour. C. Randolph Smith, director of Barclay, Curle & Co., shipbullders, and H. C. Emmerson,

Members of the mission visited the plants of Swift & Co., Hart, Schaffner and Marx, and the Goss Printing Press company yesterday. Today they will go to Gary and on Wednesday see the

International Harvester plant.

Safety Measures Impress Visitors.

While looking at the general features of American trade prosperity, the delegation's particular purpose, it is stated, is "to assartain how far and by what methods difficulties in industrial establishments have been overcome in America. They will study in this connection the methods of settling disputes and reaching agreements in particular establishments and in particular industries. They will visit establishments in which both skilled and unskilled workers are employed and tablishments in which both sained and unskilled workers are employed and they will take the opportunity of study-ing how far problems of demarcation between skilled, semi-skilled and un-skilled workers have been avoided or

The many schemes introduced into American factories since the war for safeguarding the welfare and health of employés has struck the members of the delegation as being the most important development here since the war, and one into which the whole interest in the structure of t

lustrial fabric is being woven.

The mission has been in Washington time in studying the conciliation plans in the Canadian provinces.

There are only 3,800 sets now left out of the 15,000 printed in the now world-famous NEW FORM. These will barely suffice to satisfy the big Christmas demand which has already started in with a rush.

An Amazing Success

The demand for this new 13th Edition has far surpassed all previous records in 158 successful years. Eagerly awaited and enthusiastically received, it has been acclaimed the supreme publishing achievement of this marvelous age.

EDWARD W. Bok, himself a great editor, writes: "One can only contemplate such a work of editorship with true amazement. The reading public is the richer for these monumental volumes, so greatly needed, so vital and so superlatively well done. These volumes definitely fix the ENCYCLOPAEDIA BRITANNICA beyond all doubt as the unequalled authority on world information."

Why You Must Act Quickly

From every section of the country, orders are pouring in every day. Surely and steadily, the sets on hand in the huge Britannica stock rooms are running lower and lower. Soon this entire issue will be exhausted.

Then, if you have not reserved your set, it will be necessary to wait until this great 13th Edition can be reprinted.

The unprecedented success of this new Britannica is largely due to the fact that it is published not only in the famous Cambridge Issue (32 vols.), but also in the attractive, compact and convenient NEW FORM (16 double vols.), selling at NEARLY HALF THE PRICE.

CHARLES M. SCHWAB, of the Bethlehem Steel Corporation, regards the NEW FORM as of immense practical value. He writes: "The publication of the Encyclopaedia Britannica in such convenient form and at a low price is something much more important than any purely commercial undertaking could be. It is bringing the most important and authoritative work of its kind in the world within reach of those ambitious people of moderate means who need it most, the men who are raising themselves from the ranks to positions of responsibility."

What is the NEW FORM?

Outstanding features of the NEW FORM are:

- (1) Large type, easy to read.
- (2) Complete and latest text.

NEW FORM Saves YOU

- (3) Fully illustrated. (All the new and original plates, maps, etc.)
- (4) Sweeping reduction in price.

Never before in the history of the Britannica has a New Edition been produced SIMULTA-NEOUSLY in the De Luxe Cambridge format and in the Popular-Priced NEW FORM.

MISS GERTRUDE B. LANE, editor of the Woman's Home Companion, writes: "We all realize how indispensable a good encyclopaedia is to any woman who makes the slightest pretension to being well informed, especially in these stirring times, and the value of this convenient edition (of the Britannica) is incalculable."

Startling Innovation

This new policy breaks all publishing precedents. Now YOU can easily afford to own the new Britannica while it is new

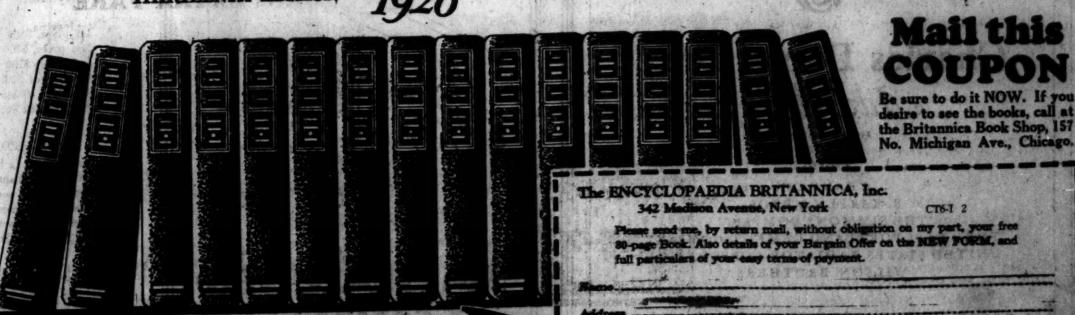

No need to wait for months-perhaps years -for a lower-priced edition. The price can never be lower than it is today!

Car miles are the miles traveled in a given length of time by one or more cars, and seat miles are the miles traveled by the car or cars multiplied by the total number of seats.

During the ten months of this year service on the Chicago Surface Lines was increased approximately 3,200,000 car miles as compared with the same period in 1925.

This is an increase of 140,000,000 seat miles.

In three years, service has been increased to the extent of a half a billion seat miles by the addition of 445 new cars purchased in a little over three years, and by improvements in operating conditions and radical revisions of schedules.

As more than half of the daily transportation load must be carried in an hour and a half in the morning and the same length of time in the evening it is impossible to avoid crowding during these rush hours, although the management is striving constantly to reduce it to the minimum.

But more passengers are being carried today and with a greater degree of comfort than ever before.

Since the discovery of the revolutionary organization at Perpignan, an agitator in New England. France, on the Spanish border, the government is revealing its nervousness, not only with regard to the political situation but in its attitude toward the army itself.

Fifteen Sergeants Ousted.

Although not having any definit proofs, the government immediately removed fifteen sergeants from their commands in the Madrid garrison and also demoted two lower commissioned officers, all of whom probably will be taken to the Canary islands. Simultaneously, the government has made about seventy-five arrests in Madrid. These arrests are not particularly sig-nificant, except as they reveal the nervousness of the government, since those imprisoned constitute the usual anti-government list of communists, anarchists and others listed as suspiclous elements in the intellig

Napoleon, the greatest soldier of all time, won countless battles that way. He always struck in one strategic spot, with every man and gun available.

The key-position

In national merchandising, there is one spot which is more important than any other. The New York market is the keyposition to national selling. Here, within a fifty-mile area, there are 9,000,000 consumers -more than there are in all New England. Here there is more money than in seven large mid-western states combined.

In the New York market, the Evening Journal occupies a situation that is absolutely unique. Its circulation of 700,000—the largest evening paper circulation in the world—is more than twice that of the next largest evening paper in New York. It is greater than the next two combined—plus 100,000! Every evening it is taken into 700,000 homes, in which live approximately 3,000,000 consumers one-third of the entire population of this area!

Fairmount, but Barrett Haynes piloted Mr. Widener's Lizard to carry off second money.

It was the eleventh running of the jumping classic of the autumn season in Maryland, and the victory of Fairmount earned \$8,900 for his owner, including the massive Manly Memorial cup, which is valued at \$500. Lizard, by running second, added \$2,000 to the day's earnings, making a total of \$10,900. Dolly Byers had the mount on Fairmount, which shouldered the crushing burden of 163 pounds and ran the two and a half miles in 4.58 2.5.

Lizard was next to top weight under 160 pounds.

Fairmount is the king of this year's cross country stars. Among his outstanding performances of the season were victories in the International steeplechase, the Charles L. Appleton Memorial steeplechase, the Temple Gwathmey Memorial steeplechase, and now the Manly Memorial.

A Tale of Three Cities - and Austin Nation-Wide Building Service

THE Central Waxed Paper Company of Chicago decided to build a branch plant at Los Angeles. The Austin Company, with organizations in both cities, was the logical choice for handling the whole project for Western Waxed Paper, from design to completion.

That was two years ago. Recently Austin completed another branch plant for the same company at Atlanta, Georgia, known as The Southern Waxed Paper Company.

Chicago, Los Angeles, Atlanta! Not nly does this "Tale of 3 Cities" speak or the facilities and wide scope of Aus-n Building Service, but it is evidence

of deserved confidence in the Austin Method of Undivided Responsibility. Method of Undivided Responsibility.

The repeat contract was direct recognition of the fact that Austin gave full satisfaction in providing a modern daylight plant, efficiently laid out for the purpose intended; with maximum usable floor space per dollar invested.

The total cost was gaaranteed in advance, the work was completed on time, and the materials and workmanship were of guaranteed quality.

at Muscle Shoals

FOR nine-tenths of a mile across the valley of the Tennessee, the dam at Muscle Shoals towers more than a hundred feet above the workman in the river bed below. Into forms constructed entirely of Southern Pine, have been poured a million and a quarter cubic yards of concrete.

Here, where millions of dollars are involved, where perfection only would mean future efficiency, every foot of the concrete forms was built of Southern Pine—5000 car loads of Southern Pine.

No chances could be taken with the wood that might yield under the load, that might buckle or warp in the moisture, that could not be fabricated into forms sometimes approaching the accuracy of pattern work. Thus once again, in its hundred years of dominance as the supreme structural wood of the world, Southern Pine proved its right to that title.

In centuries to come this dominance will be unthreatened. Millions upon millions of trees grow bigger and stronger every year in the wonderful

SECURITY

These bonds will be the direct obligation of the Loeb Arcade Building Corporation, and will be secured by a closed first mortgage on the Loeb Arcade and Hale Buildings, and the very valuable 86 year Leasehold Estate in the land thereunder, containing approximately 27,387 square feet, having a frontage on Hennepin Avenue of 148 feet and on Fifth Street of 157 feet.

The Loeb Arcade is one of the best known buildings in Minneapolis; it is a modern five-story and basement fireproof stores, shops, and office building with structural provision in foundations and columns for five additional floors.

The Hale Building is a three-story and basement mill construction stores and office building; the upper floors were recently remodeled for occupancy by the Northern States Power Co.

The Buildings are both nearly 100% rented to a high class of tenants.

VALUATION

The security for this issue of Bonds has been independently appraised by bankers, realtors, contractors and the American Appraisal Company, the average of the appraisals being \$1,060,500.

The American Appraisal Company values are as follows:

Leasehold Estate Buildings (depreciated value) 733,000 Total Appraised Value...

These appraisals show this issue of Bonds to be less than a 47% mortgage.

EARNINGS

The Net Earnings after payment of the Ground Rental, Taxes and Operating Expenses, as shown by the audit of Peat, Marwick, Mitchell & Co., for the thirty-two months ending August 31, 1926, have averaged nearly \$70,000 per year or about two and one-sixth times the maximum annual interest requirements. These figures, however, do not include any rental income from space occupied by interests who were then part owners of this property and now leased for approximately \$10,000 per year. Based upon leases as of this date, indicated net earnings during 1927-1928 and 1929 will be equal to approximately two and three-fourths times maximum interest requirements. Expiring leases are being renewed at higher rentals. Therefore, net earnings should show substantial increases over past years.

We offer these Bonds when, as and if issued and accepted by us, and subject to the approval of counsel, Mr. John P. Barnes of Messrs. Levinson, Becker, Schwartz & Frank, of Chicago, Illinois.

The chief events this week in indus-

stock exchange afford a better insight into the vast amount of liquidation that took place in the stock market during October. They also suggest that the marthe erroneous figures. The current fig-ures of the reserve board reflect the re-cent rallying tendency of the market.

While the federal reserve and stock exchange figures do not agree exactly, because the former includes all leans by members of the federal reserve system in New York and the latter includes leans of stock exchange members wherever made, the relationship between the two is more or less uniform from month to month. While the federal reserve and stock ex-

WALL STREET NOTES

NEW YORK, Nov. 8.—(P)—The curb market was again spotty today, but major activity appeared to be on the up-side. The curious cross currents that ran through the market indicated that the big speculative forces were working at cross purposes, with neither side apparently able to gain sufficient control to revive public interest.

Standiness of the oil shares was construed as an indication that the oil trade actually welcomed recent crude all price cits on the theory that they would have a tendency to restrict drilling operations and prevent wide fluctuations in commodity prices. Vacuum and Pennock each fell back over a point and Guins Signal preferred closed a point or so higher; with the active issues showing only narrow fractional changes.

In the industrial list, new high records for the year were registered by American seating voting trust certificates and the preferred stock: Bancitaly corporation, and National Sugar Refining. Motors were irregular, Ford of Camada breaking 18 points to a new 1928 low at 361 on a few odd lot sales and Auburn yielding 1½ points while Brockway, Notor advanced a point and Stute improved fractionally. Elsewhere the strength of Freshman and Dubiler Radios, Nelson corporation, Sparles Withinston and Connell-dated Laundries contrasted with the heaviness of Warner Fictures and Foundation company, foreign.

"Experience to most men is like the stern light of a ship which illumines only the path it has passed."

INVESTORS are all divided into two classes, from the standpoint of experience. The members of one class learn from their mis-takes, but rely entirely on their own knowledge. Those of the other, and more able class, profit not alone from their observations but also supplement their judg-ment with that of their investment house. When they buy, they are doubly sure of getting safe, desirable securities.

The executives of R.E. Wilsey and Company have had years of investment experience. Their specialized, collective knowledge is at the disposal of investors, as are also the comprehensive sources of reliable investment data which this house has available.

Thus through this Company, the conservative investor can use the collective experience and seasoned judgment of experts in the selection of his investments.

Small Homes Need It Most Of All

Everywhere they are proving the superior Economy of the FLAX-LI-NUM Insulating Method

THE economies of correct insulation are more welcome in small homes than in any others. Reducing the size of the heating plant without sacrifice in comfort — cutting fuel costs a full third every winter — these are but two of the direct savings resulting from the correct installation of FLAX-LI-NUM.

Everywhere home owners, building average sized, average cost homes, are proving the fallacy of overlooking the permanent economy and permanent comfort that FLAX-LI-NUM assures. It costs you — nothing. Let us show you why. In the first place few people pay all cash for their homes. A small down payment, then so much a month is the usual plan.

FLAX-LI-NUM, correctly installed in side walls and roof, will so conserve heat that a smaller furnace and less radiation may safely be used. Here is a substantial percentage of FLAX-LI-NUM'S cost saved right at the start.

Now, with your payments spread over a period of years, the cost per year for FLAX: LI-NUM insulation is almost negligible. The first winter you live in your home, and every winter thereafter,

your fuel bill is a full third less than if you had no FLAX-LI-NUM. This yearly saving far exceeds the "per year" cost of FLAX-LI-NUM. In five years, at the most, your FLAX-LI-NUM will have paid for its entire cost in reduced fuel bills — yet its economies continue so long as your home stands.

Every summer, year after year, your home will be comfortably cool. The broiling sun cannot penetrate this thick flax fibre. The upper rooms will be as cool as those below—what a blessing and a help to health during the hot summer nights. And best of all, there is no repair cost to FLAX-LI-NUM. It will stay in place in perfect condition for the life of the home. You know it's there only by the money it saves.

Do not confuse FLAX-LI-NUM with so-called dual use insulations. For sixteen years and more FLAX-LI-NUM has proved its superiority in refrigerator car insulation—the most exacting test of all. Today it is still first choice of the railroads—as well as the preferred insulation for apartments, hotels, residences, hospitals and other buildings. In material and in method FLAX-LI-NUM is genuine insulation. Insist on its use to be certain of its economies.

This Builder of Small Home Tells Why He Uses FLAX-LL-NUM

Alax-li-mum

THE CORRECT BUILDING INSULATION and SOUND CONTROL MATERIAL

These Facts Will Give You A Clear Understanding of Insulation

BUILDING insulation is accomplished by building into walls and roof a material in the body of which are millions of tiny dead air cells.

The method of using is as important as the insulation itself. Every separate surface built into a wall or roof increases its ability to stop the passage of heat.

When an insulation is half-way between the inside and the outside, you have maximum surface resist ance. When an insulation is in contact with either the outside or inside of the wall, you have cut surface resistance squarely in half.

With these facts in mind FLAX-EI-NUM was developed as an insulating material — purified flar fibre compressed into semi-rigid sheets.

With these same facts in mit FLAX-LI-NUM was developed to make possible an insulating method. Conclusive proof of its insulating efficiency is that FLAX-LI-NUM is used in the majority of the refriger ator cars being built today.

Not only is FLAX-LI-NUM the most effective insulation known today, but it is a practical building material easy to handle and install. Remember these facts about insulation—and send for a sample of FLAX-LINUM.

"I'll take it."
David did not know why he believed Bryant, but he did believe him. Also, buredibly, he was sorry for the man, whose whole look showed that he was a gainst something stark. The panic in Bryant's eyes, Goddard now realised, had nothing to do with the perils of the present situation. He had been at all of those for a fleeting moment. It was fear of life.

"What's it all about?" he added. "Come over here and tell me."

Bryant accepted the invitation—that is, he came over to the fireplace in which a few embers still glowed among the ashes and rested his elbow on the mantel, staring down at the coals. He seemed to have forgotten the hand in the pocket, for his gaze swept indifferently past it.

This, it may be said, is a "notice" of the kind Mr. Woods desires; and I don't think it is. A springe to catch woodcocks [that's out of Shakespere], it will not, I suspect, function. The big odor of the piece is supposed to be exuded in a scene of eccentric lovemaking by a female urning with an ingénue whose fiancé the former has murdered. It is, in the writing and the indicated "business," more nearly by explicit than even the episode in "God of Vengeance" which landed the management and actors in jail; but it is such weak, tawdry drama that it doesn't evoke account of the season is over.

Horseshoe Sparkles as of Old

BY NANCY R—

Through a smoky hase, caused by the flashlights of innumerable enterprising photographers, society poured into the boxes at the Auditorium last evening for "Aida," the opening presentation of Chicago's opera season.

It was a brilliant gathering. It was also a gay gathering, with much of the diamond and pearl motif of a few years ago. Bobbed heads may be in and the stately tiaras of a decade ago cut, but the scintillating effect is the same. Courteous and white haired gentlemen and beautifully gowned women met in the narrow promenade just back of the boxes between the first and second acts. The younger beaux of this especial year and the many chic and pretty belles with which Chicago society is blessed, smiled and chatted and passed the time o' day. And every one had a good time.

Without a doubt, the largest crowd

the fair Miss Rose Cummings of New York, Mrs. J. Hamilton Lewis, Eames MacVeagh, James Keeley, and Herman Waldeck, Mrs. Baur was in black, trimmed in jewelled band, while her furred wrap was of pale gold metal cloth, with woven butterfles spreading their wings across the back. Miss Cummings also wore black, as did Mrs. Lewis, the former's gown having a cascade of creamy jamnines at the side and the latter's flounce in pale blue and gold beads. Both Mrs. Baur and Miss Cummings carried huge ostich feather fans.

Another of our snappy and fair Chiengoites, Mrs. Charles Edward Brown,
flirted one of the great fans so much
in vogue. Hers was of red, startling
and chic against her white satin frock.
She and her husband were guests of
the Gustavus Swifts, with the Robert J. Thornes filling the six-in-a-box
quota.

The Arthur Meekers and their son, Arthur Jr., were hosts to Mme. Gior-gio Polacco, Miss Helen Gilbert, and Huntley Gilbert. Mrs. Meeker wore black satin and lace, with a Parisian rose on her right shoulder, while Mme. co was in white and Miss Gil-

Dr. and Mrs. Harry Pratt Judson, the Gordon Laings and Hunt Wentworth were in Mrs. Moses Wentworth's box—I don't know when I've seen the last mamed look more stunning. Her gown was of gold and black betal cloth, and her jewels, pearls and diamonds—no one has lovelier diamond ear drops than Mrs. Wentworth. Over this, a wrap of rainbow cloth, collared in sable, completed the costume. Mrs. Judson were Newbury.

"I am a young man, 23, earning a salary of \$40 a week, and having a responsible position. I am the main support of the family, consisting of my mother and father. They receive my pay check every pay day. I be-came acquainted with a girl of whom I think a great deal. I can take her out only twice a month, due to my limited income. I would like to go out with her oftener, but I simply cannot afford it. I hesitate to tell her my reason for not seeing her more frequently.
When I tell her how I long for my next date with her, she asks why I do not make it sooner. If I didn't have my family obligations, I could offer

girl you would take her out oftener nly you cannot afford it. It must be, because so many boys are reticent on the subject of obligations and the consequent lack of spending money.

But if a man wants to find out exactly what is the caliber of the girl his reams are fastened on, I know of no way it can be more quickly deterfined than by her reaction to an honest confession of his financial status. A great deal of avoidable misunderstanding goes on among young people because the boys are not frank about what they can afford. A girl sees a boy in a responsible position, earning a good salary. He has a father, who in the ordinary course of calculation would be taking care of the mother

entertainment outside. Happily, though, there are thousands of them with hearts, thousands of them that know how far a limited spending allowance will go. All they need is hint about where the boys' money is going, when it is taking care of dependent relations. Naturally, they want to be on the go if they think the boy can afford it. And unless the boy tells them frankly, how can they know? To this column there come frequent complaints about the modern maid's to extravagance.

New Oata is a real improve-

taste of New Oata. For here is a hot cereal with every quality of oatmeal—and more besides. One with a new—a better flavor—that is always light and delicate.

New Oata is the latest achievement of the Kellogg kitchens. It is a blend of oats and whole wheat, including the bran. All the exquisite flavor and goodness of each have been combined to create a marvelous new flavor and a well-balanced food. It's a tempting combination that makes you want to keep on eating.

New Oata comes to you precooked, through and through, so that you get every bit of the marvelous flavor and texture. All you need do is to cook it three minutes in boiling water before serving. Try a package today. Your

about a well known editor confronted with the problem of giving a name to the woman's page of his paper. Suggestions were asked of various writers around the office. The idea was to embrace in a single line the features of greatest interest to woman. The office wit suggested: "Home, Mother," and Blackheads."

So, though the pesky ailment of so many otherwise good complexions does not provide the most elegant topic in the world, its persistent appearance loes demand constant advice.

Blackheads afflict humanity during its most sensitive years. The primary cause is excessive activity of the fat glands, and during youth these glands are most active. Though uncleanliness will exaggerate the blackhead trouble it cannot be said that it is the cause of them, for the most cleanly person may suffer. Intestinal Putrefaction

IF you want to have a clear skin, want to erase the dark circles from under your eyes, want glossy hair, and new strength, health and energy, resupply your system with its nat-ural Acidophilus and rid your-self of Intestinal Putrefaction.

Doctors and Medical scientists in both Europe and America claim that this prevalent condition is the great destroyer of youthful health and beauty and also that it causes many serious organic troubles. Today it collects its toll, unnecessarily, from practically every man and woman, both young and old. Its marks are easily recognized— dull, graying hair, dark circles under the eyes, sallow, pasty

Acidophilus

Intestinal Putrefaction unheard of. Each year of life, however, diminishes the acidophilus supply until, often by the time young manhood or womanhood is reached, this diminished natural supply is no longer able to overcome and prevent the in-sidious action of the common sidious action of the common and poisonous germs of decay which are taken into the system along with food and cause Intestinal Putrefaction—Re-supply the body with acidophilus is all that is required to banish Intestinal Putrefaction.

As a simple and economical test just try taking two Moyer's Acid-O-Phil Tablets after every meal and at bedtime for four short weeks. You'll be surprised at how clear and firm will become at your improve-ment in looks and health. You'll ment in looks and health. You'll have more strength and energy and feel like you've taken a new "lease on life." Moyer's Acid-O-Phil Tablets are positively guaranteed to give you new health, beauty and energy or your money back. Try them and see —There's nothing like it, so do not accept imitations or substitutes. You can get the genuine Moyer's Acid-O-Phil Tablets at all good druggists.

GOODSON & WILSON, WHY BE SATISFIED WITH

\$40 TO \$60 A WEEK WHEN YOU CAN EA \$100 AND MORE? We are just opening up for sale two more wonderfu suburban subdivisions convenient to the loop, surrounded by beautiful homes. WE MUST ENLARGE OUR SALES FORCE. You don't have to have experience to sell the class of real estate we offer. We will show you how you can make big money. We have women

who less than a year ago

were clerks-and who today

are earning from \$100 to

\$200 every week. There are thousands of women in Chicago who are earning \$40 to \$60 per week who can earn more money. Remember, we do not as you to give up your present position until you are certain you will be successful. But you know success can be obtained only by going after it. We merely ask you to come in and talk it over. A nationally known sales instructor will show you how to make appointments. Experienced sales managers will close sales for you. You will earn while you learn.

YOU WILL BE GIVEN LEADS EVERY DAY. We have a real opportunity for you. . We have \$12,000,-000 worth of property-the finest North Shore and Western subdivisions - heavily wooded lots-to sell right now. Thirty-six minutes from the loop. Making appointments with people to see these properties will earn big money for you on every sale that results.

Those who prove their ability will be promoted. We want to see only women WHO WANT TO MAKE MORE MONEY, You can start right now toward a bigger income without losing a single week's pay.
